Common Group Affiliations

Family

High School friends

Current Group of friends

School Organizations

Class Groups

Social Media Groups

Relatives

Other Groups

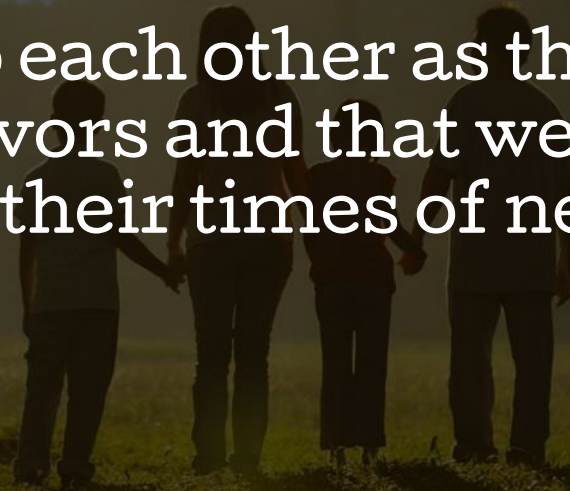

GROUPS	REASONS
School Orgs	There is not much going on as of now Sometimes restrains us to our academic needs due to time and effort
Social Media Groups	Gives us positive vibes whenever we go the groups Only interacts online and not face-to-face
Certain Extended Families	Some of us haven't seen our relatives for a long time or relatives that we would be meeting for the first time
Certain Class Groups	Groups formed to fulfill an academic requirement

MOST IMPORTANT GROUPS

1st Group: **Nuclear Family**

This is the first group we belong to and they influence us in all aspects of our lives from moral support, decision-making etc., making this group the foundation of who we are today.

We are all inclined to help each other as they too have helped us in all our endeavors and that we are willing to give as much as we can in their times of need.

MOST IMPORTANT GROUPS

2nd Group: **Extended Families**

Aside from our nuclear families, they too provide us support whenever we are in need. They are also there during our times of need and also help us emotionally during our small talks that influences our actions as well.

It is only right to feel grateful to the people who have also been with you for a long time and that we are also willing to help them as well whenever they need it.

MOST IMPORTANT GROUPS

3rd Group: **High School Friends**

People we knew from the past always have a spot in our lives. They helped us grow into the us now. From the constant chats and catching up, these simple activities make us feel important to them.

These people became our support group when we were struggling in high school. Although most of us now are in separate ways, whenever they need us, we would always be there by either giving them a helping hand or just simply listening to their problems.

MOST IMPORTANT GROUPS

4th Group: College Friends

These are the people that are with us now. Whenever we have academic related problems, they are the ones we turn to immediately and in return, they give us assistance in our school works and sometimes also give us advices on how should we venture out our college life

We are willing to help them academically, especially if it is something that we are specifically good at, or also give them our share of advices on how we are tackling our college life.

MOST IMPORTANT GROUPS

5th Group: Class Groups

These groups are either the class itself that would be with us in our academic life or the small groups that are formed for a subject requirement. We all share common goals and interests which somehow forms a strong bond with each other.

Like with our college friends, they also give us help academically and we are also willing to help them as we have the mission to graduate together.

thanks
